### Reasons to write your Will with us

A Will brings **security, reassurance and peace of mind** - not just for you, but also for all those who depend on you. Making a Will is the only way to ensure that your wishes are carried out after your death. If you have not made a Will, your property will pass according to the Law of Intestacy. This may not be what you would have wished and in any event, it is likely to take longer to finalise than if you had made a Will.

Home Visits

## Three Steps to Security

Preparing your Will is now simpler than ever and we will arrange a confidential, professional and discreet appointment at a time to suit you...

Firstly, we visit you at your home, during the day, evening, whichever is the most convenient to you. During this visit we take your instructions and, where required, we give guidance on such matters as Inheritance Tax, Trusts, Gifts of Money to Children, Storage and Probate.

Secondly, we send you a draft of your Will so that you can be 100% sure it reflects your wishes as to the disposal of your estate.

Finally, when you confirm that the draft is as you wish, your legally binding Will is delivered to you for signing and witnessing.

## Document Storage

Your Will can be registered and stored by us in a secure location with full back up facilities for its retrieval. You will receive directions, to keep with your personal papers, for the retrieval of your Will. As part of this service we send you a reminder letter every two years, asking if you wish to review your Will or make changes to it.
